the specification of which

☒ is attached hereto.☐ was filed on _____ as reissue application number _____and was amended on _____
(If applicable)

I have reviewed and understand the contents of the above-identified specification, including the claims, as amended by any amendment referred to above.

**Attachment A to Reissue Application Declaration By The Inventor
US Patent No. 6,348,813**

This is a broadening reissue application. The patentee desires to submit additional claims 17-21. These claims do not contain limitations found in the patent claims 1-16.

Claim 17 is an independent claim similar to claim 15, but claim 17 lacks at least the following limitations:

- the CPLD has at least 64 I/O terminals
- the macrocell output signals are fed directly to the global switch matrix (GSM)
- the assurance that every macrocell signal of a first segment can be simultaneously transmitted through the GSM.

Claims 18-19 depend from claim 17 and also lack the above limitations of claim 15.

Claim 20 is an independent claim directed toward the number of dedicated inter-segment longlines in a segment. None of the patent claims is believed directed to this aspect of the invention.

Claim 21 is an independent claim directed toward the number of inter-segment longlines in the GSM. None of the patent claims is believed directed to this aspect of the invention.
